## **COURSE DESCRIPTION:**

Artist have always focused on two groups of topics known as the elements of art and principles of design when learning to draw. These are the chosen topics of each unit in this class. Each topic is explored in four unique ways. This gives students enough experience with the topic that they naturally incorporate it into the way that they draw. It becomes part of their thinking as they draw any kind of subject matter. This kind of focus, and many opportunities to practice, is how children learn to draw.

## **Supplies**

The partnership will supply the text book and art supplies kit.
