I have been creating homemade crochet crafts for years. It is always awesome to teach the skill to students. What will you make while we are together?

COURSE DESCRIPTION (OVERVIEW): A beginner crochet class to teach students the basics of crochet and be able to read patterns. We will also be discussing how we can use our new skills to create a future business and what that can look like. Students are encouraged to work on projects at home and bring to class the next class time to discuss and get feedback and help.

SYLLABUS/OUTLINE: WEEKLY BREAKDOWN OF PROJECT-BASED LEARNING LAB ACTIVITIES

Describe activities that will reinforce the lesson. Include any work and time to be required outside of class: Each week we will take a look at each past project and discuss and give feedback. It will be a different project each week, unless the students decide to go more in depth with a certain project or need further assistance.
