COURSE DESCRIPTION:

Class is mostly indoors, but students will visit their outdoor backyard too.

This class is both informative and fun! Explore your own backyard. Draw nature and things in your backyard. Start or expand your Nature Journal. Drawing the things of nature helps people to learn about nature. This is a drawing class, a nature class, and a show-n-tell class. On Zoom, talk with classmates about your art, art journal, and nature in your backyard. In January to February, students will make art related to the winter season, and in March, the spring season. In class, we'll draw things such as sticks, leaves, snowy features, tracks, animals, native spring wildflowers, the backyard landscape, backyard map, etc. Each day of class, there will be a few different drawing activities, indoors, as well as one or two nature-exploration activities, outdoors, in your backyard. There will be a lot of free-hand sketching, as well as some tracing too.

Recommended: during class, at least for the first few days of class, parents should assist students with Zoom and the class, for students who are under age 12.

COURSE MATERIALS:

Teacher provides web page with sheets for student to print out at home.
