COURSE DESCRIPTION (OVERVIEW):

My Violin Group Class is designed to go along with private lessons and build a whole new skill set of playing with others... From my teaching experience I strongly believe that playing in the group benefits young musicians in many different ways...that's why children learning an instrument should be introduced to playing with others at the earliest possible opportunity.

Playing in the group is one of the greatest joys of playing an instrument, it develops essential skills such as teamwork, listening, sight reading, discipline, and also helps to overcome the fear of performance, especially for beginners...

In my class students learn in a purely positive, joyful and a non-competitive atmosphere with the right guidance of the teacher. Either it's a small group of a homogeneous group of players roughly at the same level or a mixed level group of students, the process of learning is very rewarding and beneficial for every student.

SYLLABUS/OUTLINE: WEEKLY BREAKDOWN OF LAB ACTIVITIES Describe activities that will reinforce the lesson. Include any work and time to be required outside of class:
